DETAILED ACTION

Drawings

The drawings were received on 09/10/2003. These drawings are approved.

Claim Objections

Claim 1 is objected to because of the following informalities: line 12, "said element isolating insulation" should be --said element isolating insulating-- for lack of antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3, 5, 7, 11, 14, 32, 34 and 36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation of "said open portion being located at a center portion of the second insulating film" in claim 1 sets forth structure not supported by the specification. The specification does not provide a written description of the formation of an open portion 17 at a center portion of the second insulating film 16. In fact, the specification as described at page 28, line 21 to page 29, line 15 only discloses the open portion 17 being formed in the center of the second electrode layer 18. Furthermore, the second insulating film 16 is formed

Art Unit: 2811

spanning across the memory cell array region and the selective gate region (see Fig. 2) and the open portion 17 is formed only in the selective gate region. As a result, the open portion 17 is not formed in the center portion of the second insulating film 16.

Claims 3, 5, 7, 11, 14, 32, 34 and 36 are necessarily rejected since these claims directly or indirectly depend upon the rejected base claims.

Response to Arguments

Applicant's arguments with respect to claims 1, 3, 5, 7, 11, 14, 32, 34 and 36 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
